

Gametime Stars Fastpitch – Player & Parent Guide

Parents: Getting Started

Once you have been added to your team’s roster, create your account using the same email address your manager used.

- After verifying your email, navigate to your team page.
- You will be prompted to review and sign the Parent Agreement. This outlines expectations for all Gametime Stars fastpitch families.
- In the navigation bar, click “Player Profiles”.
- Select your player’s profile.
 - o If your player is not listed, contact your manager—your player profile may not be enabled yet.
 - o Click the “Edit” button to update your player’s information.
 - o If you do not see an “Edit” button, confirm with your manager that the correct email address was used.
 - o Headshots may be updated by players or coaches. For consistency, teams are encouraged to use the same uniform and background.

The player profile is a snapshot of your athlete’s development. Keep it updated as information changes.

Creating your Player Profile:

Your player profile is one of the most important tools in the recruiting process. It provides college coaches with key information about the athlete in one place. This is a living document that should be updated regularly as your player develops. We recommend reviewing and updating the profile at least once per month. Both players and parents can make updates. Gametime Stars also integrates real-time analytics into player profiles, giving college coaches objective performance data alongside traditional information.

What College Coaches Are Looking For

- Up-to-date player information
- Verified performance data (analytics)
- Game and skills video
- Consistency and progression over time

Your player profile is designed to bring all of this together in one place.

Social Media & Videos:

While platforms like X and Instagram are useful for sharing highlights, we strongly recommend that players maintain a dedicated YouTube channel for recruiting videos. YouTube provides college coaches with a centralized, easy-to-access location for full game footage, skills videos, and highlights. Your YouTube channel link should be included in your player profile.

Steps to Create a YouTube Channel

- Sign In: Log in to YouTube on a desktop or mobile site using your Google account, or create a new one.
- Create Channel: Click your profile picture in the top right corner and select "Create a channel".
- Name and Handle: Choose a channel name and a unique handle (e.g., @yourchannel). These can be changed later, as suggested by YouTube Creator.
- Customize: Add a profile picture, channel description, and channel art to define your brand.
